

Click & clean Central satellite

The most versatile, hygienic, robust and reliable central cleaning satellite on the market.

Click & clean central units are standard equipped with:

- Stainless steel Maintenance free selector valve for water, chemicals and air. AISI316.
- Valve with PTFE seals for excellent chemical resistance.
- Air regulator.
- Air manometer.
- Lockable stainless steel cabinet, with sloped top cover for optimal hygiene. AISI316
- Internal PTFE hoses with stainless steel AISI316 wire for pré-mixed chemicals.
- 2 x stainless steel check valve for air supply protection.
- 1 x Check valve with detector when first check valve is failing.
- All adapters ½" BSP 60° hydraulic for seal or glue free connection.

Wall mounted version

Mounting example.

FFDR version.

- Stainless steel chemical injector for sporadic use of acid for descaling.

Mounting example FFR version

Click & clean central switchbox.

The click & clean Central FFR, FSR, FFRR, FFDR and FFFR series are equipped with the famous Dosanova “switchbox”. This massive AISI316 switchbox is equipped with PTFE seals for excellent chemical resistance.

With a single lever the operator can change between the different medias. Only compressed air, water and pré-mixed chemicals are to be connected to the unit.

In contrast to other similar systems in the market, it switches 100% mechanically. So no other parts are needed that often require maintenance and are expensive to replace.

This switchbox is very versatile, so there are plenty of options to meet your specific needs.

Most common functions Click & clean central Versions:

Type	FFR	FSR	FFRR	FFDR	FFFR
Reference:	100.200FFR	100.200FSR	100.200FFRR	100.200FFDR	100.200FFFR
Clear water rinse full flow.	✓	✓	✓	✓	✓
Second clear water rinse (hot, RO, demi water)	x	x	✓	x	x
Foaming premixed chemical 1	✓	✓	✓	✓	✓
Foaming premixed chemical 2	✓	x	✓	✓	✓
Spray cleaning chemical 2 (no foaming disinfection)	x	✓	x	x	x
Foaming premixed chemical 3	x	x	x	x	✓
Spray or foam decentral chemical	x	x	x	✓	x
Complete stop position.	✓	✓	x	x	x

Click & clean central units can be custom build with many other possibilities.

Technical specifications central FFR satellite:	
Water connection	1/2" M BSP 60°
Water pressure	5 - 60 bar
Water temperature	0 - 90°C.
Air connection	1/2" M BSP 60°
Air pressure	5 - 10 bar
Pré-mixed chemical connections	1/2" M BSP 60°
Pré-mixed chemical pressure	5 - 10 bar
Basic functions	<ul style="list-style-type: none"> • Foam cleaning • Foam Disinfection • Clean water rinse
Chemical injectors	2 - 100% separated
Dosing ratio	0.15 - 15%
Materials	Stainless steel AISI316
Dimensions (HxWxD):	500 x 500 x 210 mm.

Legend Click & clean Central FFR

Most common accessories:

<p>Stainless steel automatic spring loaded hose reels with optional wall swivel. Let the hose reel turn 180° on the wall. Standard version 200bar / 90°C. <p>Ref. 140.113 Isolated stainless steel ball valve with integrated "3in1" triple click nozzle. This system prevents nozzles from being lost if they have to be changed when rinsing, foaming or disinfecting. Here no use is made of quick couplings where O rings have to be replaced frequently. With this system nozzles are fixed on the valve and cannot be removed. Insulated against heat and shock resistant.</p>																

<p>Ref.140.114 Isolated stainless steel ball valve with ST3100 quick coupling. Max. 60bar/90°C. For users who want to work with triple click nozzle (XL version) and need to switch to long rinse lance in some cases.</p>	
<p>Ref. 140.145XL Stainless steel triple click nozzle (3in1) equipped with short lance and ST3100 quick adapter.</p>	
<p>Ref. 40.2300.60 Stainless steel lance 1000mm with isolation and nozzle protector with ST3100 quick adapter. Nozzle not included.</p>	
<p>Ref. 270.100 Stainless steel heavy duty wall support for 1 x 25liter canisters.</p>	

Mounting equipment:

<p>Ref. DKR12G12D18 Flex adapter. Max. 250bar/150°C. Stainless steel adapter with on 1 side G1/2" swivel BSP 60° conical and on other side Ø18mm stainless steel pipe. The pipe can be welded, crimped or connected with bi-conic adapters. The swivel adapts to ½" BSP 60° nipples without any glue, sealants or Teflon.</p>	
<p>Ref. 200264540 Stainless steel non return valve. ½" F in/out. Max. 400bar/90°C.</p>
